

Fife One Stop Shop for Autism has moved to Kirkcaldy

The **One Stop Shop** is now based in **New Volunteer House, 16 East Fergus Place, Kirkcaldy, KY11 1XT.**

The service offers people with autism, their families and professionals information and advice about autism as well information and referrals to support services that are available in the Fife area.

We are delighted to have secured funding from Fife's Health and Social Care partnership to enable us to continue to provide a service Fife-wide.

We are aware that although this may be welcome news to families who previously could not access us, this might come as a loss to families who accessed our service in Dunfermline.

We will work with individuals and families to help with this transition and we encourage anyone concerned about these changes to contact us to arrange an appointment to speak to a member of staff.

For advice, support, information and appointments please contact us on:-
