# NORTH EAST FIFE

Locality Network Event

For Professionals Who Support  
Young People's Emotional Wellbeing

Castlehill Primary School, 30<sup>th</sup> October 2019 4- 5.30 pm

After a brief update on the work of Our Minds Matter and the CAMHS Early Intervention Service, we will look at levels of support and map out services that support emotional wellbeing across the North East of Fife. We will also signpost some online resources, including GIRFEC and Hands On Websites and how these can support you in your work with children & young people.

We will then look at the '5-ways to wellbeing' and reflect on how these feature in our current practice and services, both for ourselves and the children, young people and families we support. We will discuss how we can further integrate these approaches into our settings, and how to respond to the needs of North East Fife together highlighting next steps for the area.
